

Metering System DULCODOS eco (DSBa)

Choose from a range of different components and adapt the metering system to your requirements.

For storing and metering liquid chemicals use a selection guide (identity code) to quickly and flexibly adapt your metering system to your metering task.

Technical Details

- Dosing tank: PE, 35 – 1,500 litres
- Collection pan: PE, 35 – 1,500 litres
- Lock for screw top
- Hand mixer/stirrer: PP, PVDF or stainless steel, various outputs
- Suction assembly: PP, PVC, various connectors
- Level switch for suction assembly: 2-stage
- Emptying: PP, PVC, with ball valve
- Metering pump: beta, gamma/ X, gamma/ XL, Sigma/ 1, Sigma/ 2, Sigma/ 3

Metering System DULCODOS eco (DSBa)

Choose from a range of different components and adapt the metering system to your requirements.

ProMinent metering systems with PE storage tanks can be selected and ordered with the help of an identity code system. First, select the metering pump using the separate pump identity code.

Selectable components

1. PE dosing tanks (35 – 1,500 litres)
2. Stackable collecting pans (35 – 1,500 litres)
3. Lock for tank screw top
4. Hand mixer/stirrer (*)
5. Suction assembly
6. Level switch for suction assembly
7. Drain tap for storage tank (*)
8. Order metering pump (*) separately (Order the pump separately due to the large number of possible pumps that can be installed on storage tanks. Use the identity code for the pump you require.)

* These components are ready for subsequent installation, but are supplied separately to avoid damage in transit. Customers should fully install the system on-site.
